Copeland Dividend Growth Fund  
Semi-Annual Report  
May 31, 2023

Dear Fellow Shareholders:

Copeland Capital Management is pleased to review the performance of the Dividend Growth Fund from December 1, 2022 through May 31, 2023. Unless otherwise stated herein, all data and statistics that follow are as of May 31, 2023.

During the six-month period, the Fund fell 2.2%, lagging the 3.3% advance registered by the S&P 500 Index. As the period unfolded, market advances were led by a handful of mega-cap technology stocks while the lion's share of equities showed little or no gains. To wit, the NASDAQ Composite Index rose 13.3% during the period while the S&P 500 Equal Weight Index fell 5.3%. The bifurcated market environment was fostered by investor belief that technology shares are best positioned to grow earnings amidst a broader softening in corporate profitability. The recent frenzy surrounding artificial intelligence added fuel to the rally. Amidst the current backdrop, we are pleased that the Fund return has outpaced that of the S&P 500 Equal Weight Index.

Our stock selection in the Health Care sector of the market bolstered Fund returns while those in the Information Technology sector, despite rising over 14% on average, were a drag. Broadcom (AVGO, 2.2% of holdings at period end) was the top performing holding, advancing over 48% during the period. The semiconductor and software provider has a long history of successfully acquiring and integrating a wide range of technology companies. Additions immediately undergo cost-cutting measures that boost profitability and underlying cash flows. A broad suite of product offerings allows for cross selling to their customer base. Dividends and cash flow per share have advanced at a 12% and 19% rate, respectively, over the past three years. Further advances in 2023 are expected. Reflective of our strong relative performance in the Health Care sector, West Pharmaceutical (WST, 1.3% of holdings at period end) rose 43% during the period. The company provides medical supplies to the pharmaceutical, biotechnology, and generic drug industries. A broad customer base insulates West from the fortunes of any particular buyer, providing a strong underpinning for the toolmaker. Regulatory oversight of the medical manufacturing process discourages customer switching and provides a wide economic moat.

On the downside, Fund holding Truist Financial (TFC, 0.0% of holdings at period end) was a poor performer in the Fund, dipping roughly 38.2% during the period. The Charlotte, NC based regional bank came under pressure amidst a broader crisis in the banking sector. The failures of Silicon Valley Bank and Signature Bank, in March 2023, represent the second and third largest bankruptcies in U.S. history. Unrealized bond losses, incurred as the U.S. Federal Reserve (the "Fed") sharply lifted interest rates, precipitated liquidity concerns which led depositors to flee the banks in question. While we do not believe that Truist will suffer a similar fate, we elected to exit the shares out of an abundance of caution and the likelihood that liquidity concerns will linger for some time. Chemical manufacturer Albemarle (ALB, 1.4% of holdings at period end) was also a laggard, falling 20.0% during the period. The company is the world's largest producer of lithium for use in electric vehicle batteries and other applications. Lithium prices rose as high as \$75,000 per ton in 2022, bolstered by anticipated demand for electric vehicle batteries. Slowing demand to start 2023 pushed prices down substantially, putting pressure on Albemarle shares. We anticipate that lithium prices will regain their footing as the year progresses and demand

growth outstrips supply. Growth could average 20% per year as electric vehicle adoption continues to expand and the company invests to expand production capacity.

The narrow market leadership of large technology stocks and the weakness felt among some cyclical stocks in the first half of 2023, reflects the economic pressures that are currently developing due to the impact of sharply higher interest rates implemented this year. Despite this, inflation remains stubbornly high, with the most recent Core Consumer Price Index reading rising 5.3% in May versus the prior year. This elevated reading, relative to the 2% rate targeted by the Fed, may induce further rate hikes in the months ahead. In fact, a combination of historic fiscal stimulus passed in recent years coupled with a rebound in the housing sector and accelerating investment in AI are all helping to forestall the widely forecast recession, making the Fed's next moves all the more difficult to predict.

Amidst this challenging backdrop, we find the strong business models and market positions afforded by dividend growth securities to be of particular appeal. Those companies able to grow earnings, cash flows and dividends amidst the various headwinds and tailwinds described above will be the focus of our portfolio selection, aiding the Fund's attempt to deliver strong risk adjusted returns.

Thank you for the confidence you have placed in Copeland and for your investment in the Copeland Dividend Growth Fund.

Copeland SMID Cap Dividend Growth Fund  
Semi-Annual Report  
May 31, 2023

Dear Fellow Shareholders:

Copeland Capital Management is pleased to review the performance of the Copeland SMID Cap Dividend Growth Fund from December 1, 2022 through May 31, 2023. Unless otherwise stated herein, all data and statistics that follow are as of May 31, 2023.

During the six-month period, the Fund returned -1.4%, beating the -5.7% decline in the Russell 2500 Index. The period began with great volatility; however that was substantially mitigated as the market stabilized towards the end of May. A decline in December to end calendar 2022 was followed by a double-digit gain in January, only to be upset by the banking turmoil that dominated fears in the latter part of the first quarter of 2023. The benchmarks ultimately bottomed out late in March. Though the crisis led to the demise of a handful of poorly managed banks that suffered from a flight of deposits, the vast majority survived, even as their stocks finished the period sharply lower. Investors' attention soon shifted from this pessimism to excitement as a frenzy surrounding artificial intelligence (AI) added fuel to a Technology sector rally. Large capitalization equities were benefited most from the higher weight of Technology in the S&P 500 Index, leading to outperformance relative to smaller stocks. Amidst the shifting moods, our dividend growth stocks outperformed the indices on the downside and participated fully in the rebounds, thereby aiding the performance outcome for the period.

The Fund benefited substantially from the decline among Financials stocks, as higher quality lenders demonstrated their resilience by raising their dividend at an average rate of 9% during the period. In fact, Bank OZK (OZK, 1.4% of holdings at period end), extending its streak of 51 sequential quarterly hikes, raised its dividend twice, resulting in 13% growth year over year. Our Healthcare stocks also aided performance, as Covid-19 fears faded and labor shortages among nurses abated. Lemaitre Vascular (LMAT, 1.8%) saw demand for its vascular implants and devices accelerate as medical procedures rebounded, leading to better operating leverage on its expanding sales force, boosting profit expectations and the stock. The company's 12% dividend increase was its 13<sup>th</sup> consecutive year of delivering double-digit growth. The Fund's top performing stocks were dominated by Technology holdings, which rebounded from a tough 2022 when the highest growth stocks fell out of favor. Notably, Universal Display Corporation (OLED, 1.6% of holdings at period end), the leading supplier of technology patents and materials to the OLED display market, raised its dividend for the sixth year in a row, this time by a healthy 17%. The company was aided by the rebound in sentiment towards electronics suppliers, amid signs of growing penetration of OLED displays into the TV and tablet markets.

Fund performance was held back in the Consumer Discretionary sector, where Domino's Pizza (DPZ, 1.2% of holdings at period end) and Advanced Auto Parts (AAP, 0.0% of holdings at period end) lagged the rebounding sentiment towards the space, despite fears of a developing recession. DPZ suffered from high labor costs and the return of patrons to dining in restaurants, after having widely favored delivery during the pandemic. We expect the tough comparisons to pass in coming quarters and their take-out and delivery services to become an increasingly attractive, low-cost option as pressures on the consumer intensify. AAP failed to capitalize on the recovery in driving activity and the aging of America's car fleet, which has led to greater demand for auto parts repair services. The Fund sold the stocks as management failed to deliver an increase in the dividend this spring, reflecting its poor execution and deterioration in

cash flows. Finally, TTEC Holdings (TTEC, 0.8% of holdings at period end) lagged the enthusiasm for Technology sector stocks as the call center outsourcing operator needs to prove to the market that it can meet the challenge of a rapidly changing technological and economic environment. The attention paid to AI was a headwind in the period, as the technology is both a risk and an opportunity for the company to deliver the most relevant and efficient customer experiences.

The narrow market leadership of large technology stocks, and weakness felt among some cyclical stocks in the first half of 2023, reflects the economic pressures that are currently developing due to the impact of sharply higher interest rates implemented this year. Despite this, inflation remains stubbornly high, with the most recent Core Consumer Price Index reading rising 5.3% in May versus the prior year. This elevated reading, relative to the 2% rate targeted by the U.S. Federal Reserve (the “Fed”), may induce further rate hikes in the months ahead. In fact, a combination of historic fiscal stimulus passed in recent years coupled with a rebound in the housing sector and accelerating investment in AI are all helping to forestall the widely forecast recession, making the Fed’s next moves all that more difficult to predict.

## **1. ORGANIZATION**

Copeland Dividend Growth Fund (the “Dividend Growth Fund”), formerly, the Copeland Risk Managed Dividend Growth Fund, Copeland SMID Cap Dividend Growth Fund (the “SMID Fund”), and Copeland International Small Cap Fund (the “International Fund”) are diversified series of Copeland Trust (the “Trust”). The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”) as an open-end management investment company. The Trust was organized as a statutory trust on September 10, 2010, under the laws of the State of Delaware.

The Dividend Growth Fund currently offers Class A, Class C and Class I shares. The SMID Fund and International Fund currently offer Class A and Class I shares. The Dividend Growth Fund’s Class A shares commenced operations on December 28, 2010, Class C shares commenced operations on January 5, 2012 and Class I shares commenced operations on March 1, 2013. The SMID Fund’s Class I shares commenced operations on February 27, 2017 and Class A shares commenced operations on February 11, 2019. The International Fund’s Class A and Class I shares commenced operations on December 28, 2021. Class A shares of each Fund are offered at net asset value plus a maximum sales charge of 5.75%. Purchases of \$1,000,000 or more may be subject to a maximum contingent deferred sales charge of 1.00% on shares redeemed within 18 months. Class C and Class I shares are offered at net asset value. Each class represents an interest in the same assets of the applicable Fund and classes are identical except for differences in their sales charge structures and ongoing service and distribution charges. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans. The Funds’ income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of significant accounting policies followed by the Funds in preparation of their financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The Funds are investment companies and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 “Financial Services – Investment Companies” including FASB Accounting Standard Update ASU 2013-08.

### **SECURITY VALUATION**

Effective September 8, 2022, and pursuant to the requirements of the 1940 Act and Rule 2a-5 thereunder (the “Rule”), the Board of Trustees (the “Board”) has designated the Trust’s investment adviser, Copeland Capital Management, LLC (“Copeland”) as the Valuation Designee for the Funds pursuant to the Rule. The Valuation Designee has the responsibility for the fair value determination with respect to all Fund investments that do not have readily available market quotations or quotations that are no longer reliable. Copeland has appointed a Pricing Committee (the “Committee”) and has established a Valuation and Pricing Policy to implement the Rule and the Funds’ Valuation and Pricing Policy (together the “Policy”). Prior to September 8, 2022, fair-value determinations were performed in accordance with the Trust’s Fair Value Procedures established by the Funds’ Board of Trustees and were implemented through a Fair Value Committee designated by the Board. The valuation of investments with readily available market quotations has been delegated by the Board to the Funds’ administrator.

When valuing portfolio securities, a Fund values securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (other than securities traded on National Association of Securities Dealers Automated Quotations (NASDAQ) or as otherwise noted below) at the last quoted sale price on an exchange or market (foreign or domestic) on which the securities are traded or, if there is no such reported sale, at the most recent quoted bid price. A Fund values securities traded on NASDAQ at the NASDAQ Official Closing Price. The prices of foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates. If a security’s price cannot be obtained, as noted above, a Fund will value the securities using a bid price from at least one independent broker.

### NOTES TO FINANCIAL STATEMENTS (Continued)(Unaudited)

May 31, 2023

---

Prices for most securities held by a Fund are provided daily by third-party independent pricing agents. Copeland reasonably believes that prices provided by independent pricing agents are reliable. However, there can be no assurance that such pricing service's prices will be reliable. Copeland will continuously monitor the reliability of prices obtained from any pricing service and shall promptly notify the Funds' administrator if it believes that a particular pricing service is no longer a reliable source of prices. The Funds' administrator, in turn, will notify Copeland, as Valuation Designee, if the Funds' administrator reasonably believes that a particular pricing service is no longer a reliable source for prices.

The Valuation Designee must monitor for circumstances that may necessitate that a security be valued using Fair Value Procedures which can include: (i) the security's trading has been halted or suspended, (ii) the security has been de-listed from a national exchange, (iii) the security's primary trading market is temporarily closed at a time when under normal conditions it would be open, (iv) the security has not been traded for an extended period of time, (v) the security's primary pricing source is not able or willing to provide a price, (vi) trading of the security is subject to local government-imposed restrictions; or (vii) a significant event (as defined below) has occurred. When a security is valued in accordance with the Fair Value Procedures, the Valuation Designee will determine the value after taking into consideration relevant information reasonably available to the Valuation Designee. Examples of factors the Valuation Designee may consider include: (i) the type of security or asset, (ii) the last trade price, (iii) evaluation of the forces that influence the market in which the security is purchased and sold, (iv) the liquidity of the security, (v) the size of the holding in a Fund or (vi) any other appropriate information.

The Valuation Designee is responsible for selecting and applying, in a consistent manner, the appropriate methodologies for determining and calculating the fair value of holdings of the Funds, including specifying the key inputs and assumptions specific to each asset class or holding.

The determination of a security's fair value price often involves the consideration of a number of subjective factors and is therefore subject to the unavoidable risk that the value assigned to a security may be higher or lower than the security's value would be if a reliable market quotation for the security was readily available.

The International Small Cap Fund use a third-party fair valuation vendor. The vendor provides a fair value for foreign securities held by the Fund based on certain factors and methodologies (involving, generally, tracking valuation correlations between the U.S. market and each non-U.S. security). Values from the vendor are applied in the event that there is a movement in the U.S. market that exceeds a specific threshold that has been established by the Committee.

For securities that principally trade on a foreign market or exchange, a significant gap in time can exist between the time of a particular security's last trade and the time at which a Fund calculates its NAV. The closing prices of such securities may no longer reflect their market value at the time a Fund calculates NAV if an event that could materially affect the value of those securities (a "Significant Event"), including substantial fluctuations in domestic or foreign markets or occurrences not tied directly to the securities markets, such as natural disasters, armed conflicts or significant governmental actions, has occurred between the time of the security's last close and the time that a Fund calculates NAV. A Fund may invest in securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares. As a result, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem Fund shares.

A Significant Event may relate to a single issuer or to an entire market sector. If Copeland becomes aware of a Significant Event that has occurred with respect to a security or group of securities after the closing of the exchange or market on which the security or securities principally trade, but before the time at which a Fund calculates NAV, it may request that a Committee meeting be called. In addition, with respect to certain securities, the Funds' administrator performs price comparisons and price movement review (among other processes), to monitor the pricing data supplied by various sources. Any identified discrepancies are researched and subject to the procedures described above.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods.

### NOTES TO FINANCIAL STATEMENTS (Continued)(Unaudited)

May 31, 2023

---

The three levels of input are:

**Level 1** – Unadjusted quoted prices in active markets for identical assets and liabilities that the Funds have the ability to access.

**Level 2** – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

**Level 3** – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of May 31, 2023 for the Funds' assets measured at fair value:

### NOTES TO FINANCIAL STATEMENTS (Continued)(Unaudited)

May 31, 2023

---

#### **SECURITY TRANSACTIONS AND INVESTMENT INCOME**

Investment security transactions are accounted for on a trade date basis. Cost is determined and gains and losses are based upon the specific identification method for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Purchase discounts and premiums on securities are accreted and amortized over the life of the respective securities.

#### **FEDERAL INCOME TAXES**

The Funds intend to continue to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and will distribute all of their taxable income, if any, to shareholders. Accordingly, no provision for Federal income taxes is required in the financial statements.

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Funds’ tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions related to the open tax years or expected to be taken in the Funds’ November 30, 2023 tax returns. The Funds identify their major tax jurisdictions as U.S. Federal and foreign jurisdictions where the Funds may make investments; however, the Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

#### **DIVIDEND-PAYING STOCK RISK**

The Funds’ emphasis on dividend-paying stocks could cause a Fund to underperform similar funds that invest without consideration of a company’s track record of paying dividends. Stocks of companies with a history of paying dividends may not participate in a broad market advance to the same degree as most other stocks, and a sharp rise in interest rates or economic downturn could cause a company to unexpectedly reduce or eliminate its dividend. If the amount a company pays out as a dividend exceeds its earnings and profits, the excess will be treated as a return of capital and the Fund’s tax basis in the stock will be reduced. A reduction in the Fund’s tax basis in such stock will increase the amount of gain (or decrease the amount of loss) recognized by the Fund on a subsequent sale of the stock.

#### **MARKET RISK**

Overall securities market risks may affect the value of individual securities in which the Fund invests. Factors such as foreign and domestic economic growth and market conditions, interest rate levels, and political events affect the securities markets.

#### **REIT RISK**

An equity REIT’s performance depends on the types and locations of the rental properties it owns and on how well it manages those properties. Real estate values rise and fall in response to a variety of factors, including local, regional and national economic conditions, changes in interest rates and property taxes.

#### **SMALL AND MEDIUM CAPITALIZATION RISK**

The value of a small or medium capitalization company securities may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

#### **FOREIGN INVESTING RISK**

The International Fund invests significantly in foreign securities. Investments in foreign countries are subject to country-specific risks such as political, diplomatic, regional conflicts, terrorism, war, social and economic instability and policies that have the effect of decreasing the value of foreign securities. Foreign investments may experience greater volatility than U.S. investments. Currency hedging transactions may not perfectly offset the Fund’s foreign currency exposure and entail additional trading commissions and fees.

#### **FOREIGN CURRENCY**

The accounting records of the Funds are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in a foreign currency, and income receipts and expense payments, if any, are translated into U.S. dollars using the prevailing exchange rate at the London market close. Purchases and sales of securities are translated into U.S. dollars at the contractual currency rates established at the approximate time of the trade. Net realized gains and losses on foreign currency

transactions represent net gains and losses from currency realized between the trade and settlement dates on securities transactions and the difference between income accrued versus income received. The effects of changes in foreign currency exchange rates on investments in securities are included with the net realized and unrealized gain or loss on investment securities.

***FORWARD CURRENCY CONTRACTS***

If foreign securities are purchased, the Funds generally enter into forward currency exchange contracts in order to eliminate ongoing foreign currency exchange rate risks. If foreign securities are sold, the foreign currency proceeds are typically repatriated into US dollars. Any realized gains and losses between trade date and settlement date from contract transactions are included as a component of net realized gains (losses) from foreign currency transactions in the Statements of Operations. The Funds did not hold any forward currency contracts as of May 31, 2023.

***CONCENTRATION OF RISK***

Investing in securities of foreign issuers and currency transactions may involve certain considerations and risks not typically associated with investments in the United States. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region. These conditions could cause the securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities.

***DISTRIBUTIONS TO SHAREHOLDERS***

Distributions from investment income, if any, are declared and paid annually and are recorded on the ex-dividend date. The Funds will declare and pay net realized capital gains, if any, annually. The character of income and gains to be distributed is determined in accordance with income tax regulations, which may differ from GAAP. These “book/tax” differences are considered either temporary (i.e., deferred losses, capital loss carry forwards) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require classification.

***EXPENSES***

Expenses of the Trust that are directly identifiable to a specific Fund are charged to that Fund. Expenses, which are not readily identifiable to a specific Fund, are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the Funds in the Trust.

***INDEMNIFICATION***

The Trust indemnifies their officers and trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnities. The Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss due to these warranties and indemnities to be remote.

**3. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES**

***ADVISORY FEE***

Subject to the authority of the Board, the adviser is responsible for management of the Funds’ investment portfolios. Pursuant to the Management Agreement (the “Management Agreement”), investment advisory services are provided to the Funds by Copeland Capital Management, LLC (the “Adviser”). Under the terms of the Management Agreement, the Adviser receives monthly fees calculated at an annual rate of 0.75% for each of the Dividend Growth Fund and SMID Fund and 0.78% for the International Fund, based on the average daily net assets of the respective Fund. For the six months ended May 31, 2023, the Adviser earned advisory fees of \$178,608, \$190,355, and \$1,523 for the Dividend Growth Fund, SMID Fund, and International Fund, respectively, before the effect of the Expense Limitation Agreement.

The Adviser, pursuant to an Expense Limitation Agreement (the “Agreement”) has contractually agreed to reduce its fees and/or absorb expenses of each Fund, at least until March 31, 2024 to ensure that Net Annual Operating Expenses (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs such as interest

#### **DISTRIBUTOR**

The Board has adopted Distribution Plans and Agreements for each Fund (collectively the "Plan") pursuant to Rule 12b-1 under the 1940 Act. The Plan provides that a monthly service and/or distribution fee is calculated by each Fund at an annual rate of 0.25% and 1.00% (of which up to 0.75% is a distribution fee and up to 0.25% is a service fee) of the average daily net assets attributable to Class A shares and Class C shares, respectively and is paid to Northern Lights Distributors, LLC (the "Distributor" or "NLD"), to provide compensation for ongoing distribution-related activities or services and/or maintenance of the Funds' shareholder accounts, not otherwise required to be provided by the Adviser. The Plan is a compensation plan, which means that compensation is provided regardless of 12b-1 expenses incurred. For the six months ended May 31, 2023, the 12b-1 fees accrued amounted to \$18,043 and \$49,440 for the Dividend Growth Fund for Class A and Class C shares, respectively. The 12b-1 fees accrued for the SMID Cap Dividend Growth Fund Class A shares were \$2,079. The International Fund did not accrue any 12b-1 fees for the period.

The Distributor acts as the Funds' principal underwriter in a continuous public offering of the Funds' shares. For the six months ended May 31, 2023, the Distributor received \$230 in underwriting commissions for sales of Class A shares of the Dividend Growth Fund, of which \$30 was retained by the principal underwriter or other affiliated broker-dealers and \$793 in underwriting commissions for sales of Class A shares of the SMID Cap Dividend Growth Fund of which \$104 was retained by the principal underwriter or other affiliated broker-dealers. No underwriting commissions were generated by Class A Shares of the International Fund during the six months ended May 31, 2023.

In addition, certain affiliates of the Distributor provide services to the Funds as follows:

#### **ULTIMUS FUND SOLUTIONS, LLC ("UFS")**

UFS, an affiliate of the Distributor, provides administration, fund accounting, and transfer agent services to the Trust. Pursuant to separate servicing agreements with UFS, the Trust pays UFS fees for providing administration, fund accounting, and transfer agency services to the Funds. These fees are disclosed in the Statement of Operations. An officer of the Trust is also an officer of UFS and is not paid any fees directly by the Funds for servicing in such capacity.

#### **BLU GIANT, LLC ("Blu Giant")**

Blu Giant, an affiliate of UFS and the Distributor, provides EDGAR conversion and filing services as well as print management services for the Funds on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Funds.

#### SHAREHOLDER SERVICES

The Board has adopted non-Rule 12b-1 shareholder service plans (collectively, the “Shareholder Service Plan”) for the Class I shares of each Fund. The Shareholder Service Plan permits the Funds to pay brokers, financial intermediaries and others an annual fee of 0.10% of each Fund’s average daily net assets attributable to the Class I shares for shareholder support and/or administrative services, not otherwise provided by the Trust’s transfer agent. The fees incurred by the Funds for these services are included as Shareholder Service Fees – Class I in the Statement of Operations. For the six months ended May 31, 2023, the Dividend Growth Fund accrued \$4,308 and the SMID Cap Dividend Growth Fund accrued \$12,528 in fees associated with the Shareholder Service Plan. The International Fund did not accrue any Shareholder Service Fees for its Class I shares during the period. The Funds’ Class A and Class C shares may also pay broker-dealers or other financial intermediaries for shareholder support services and/or administrative services based on the aggregate net asset value of the Class A and Class C shares, as applicable, owned of record or beneficially by the broker-dealers’ or financial intermediaries’ customers. The fees incurred by the Funds for these services are included as Non-Rule 12b-1 Shareholder Services Fees - Class A and Class C in the Statement of Operations.

#### CHIEF COMPLIANCE OFFICER

The Adviser is providing a Chief Compliance Officer to the Trust as well as related compliance services. The Trust reimburses the Adviser for an allocable portion of the Chief Compliance Officer’s salary.

#### TRUSTEES

Effective February 1, 2021, as compensation for services rendered to the Trust, each Trustee of the Trust who is not affiliated with the Trust or the Adviser receives: (1) an annual base retainer of \$22,000; (2) \$12,000 for attendance at four regularly scheduled Board meetings per year; (3) \$1,500 for attendance at each regularly scheduled Audit Committee meeting; (4) \$750 and \$2,500 for each additional special telephonic or special in person meeting, respectively; and (5) the independent Chairman of the Board receives an additional \$9,000 per year for carrying out his additional responsibilities. The foregoing compensation is paid in quarterly payments.

The “interested persons” (as defined in the 1940 Act) who serve as Trustees of the Trust receive no compensation for their services as Trustees. None of the executive officers receive compensation from the Trust except for the CCO, a portion of whose salary is paid by the Trust for compliance services.

#### 4. INVESTMENT TRANSACTIONS

The cost of purchases and the proceeds from sales of investments, other than short-term investments, for the six months ended May 31, 2023 were as follows:

<u>Fund</u>	<u>Purchases</u>	<u>Sale Proceeds</u>
Dividend Growth Fund	\$ 9,249,707	\$ 14,557,479
SMID Cap Dividend Growth Fund	16,849,849	11,353,792
International Small Cap Fund	206,962	116,916

#### 5. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION – TAX BASIS

The identified cost of investments in securities owned by the Funds for federal income tax purposes, and their respective gross unrealized appreciation and depreciation at May 31, 2023, were as follows:

<u>Fund</u>	<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation/ (Depreciation)</u>
Dividend Growth Fund	\$ 38,503,209	\$ 7,587,005	\$ (1,506,641)	\$ 6,080,364
SMID Cap Dividend Growth Fund	50,929,474	4,000,595	(2,520,879)	1,479,716

**6. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL**

The tax character of fund distributions paid for the periods ended November 30, 2022 and November 30, 2021 was as follows:

**For the year ended November 30, 2022**

<u>Portfolio</u>	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Total</u>
Dividend Growth Fund	\$ 1,729,801	\$ 5,809,629	\$ 7,539,430
SMID Cap Dividend Growth Fund	621,556	1,751,884	2,373,440
International Small Cap Fund	-	-	-

**For the year ended November 30, 2021**

<u>Portfolio</u>	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Total</u>
Dividend Growth Fund	\$ -	\$ -	\$ -
SMID Cap Dividend Growth Fund	95,889	-	95,889
International Small Cap Fund	-	-	-

As of November 30, 2022, the components of accumulated earnings/(deficit) on a tax basis were as follows:

<u>Portfolio</u>	<u>Undistributed Ordinary Tax-Exempt Income</u>	<u>Undistributed Ordinary Income</u>	<u>Undistributed Long-Term Capital Gains</u>	<u>Post October Loss and Late Year Loss</u>	<u>Capital Loss Carry Forwards</u>	<u>Other Book/Tax Differences</u>	<u>Unrealized Appreciation/ (Depreciation)</u>	<u>Total Accumulated Earnings/(Deficits)</u>
Dividend Growth Fund	\$ -	\$ 314,488	\$ 2,869,741	\$ (1,638,886)	\$ -	\$ -	\$ 9,114,945	\$ 10,660,288
SMID Cap Dividend Growth Fund	-	557,645	1,171,218	(1,347,883)	-	-	2,649,936	3,030,916
International Small Cap Fund	-	8,272	-	(1,678)	(69,641)	-	(24,335)	(87,382)

The difference between book basis and tax basis undistributed net investment income, accumulated net realized gains, and unrealized appreciation from investments is primarily attributable to the tax deferral of losses on wash sales, mark-to-market on passive foreign investment companies and C-Corporation return of capital distributions.

Capital losses incurred after October 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The following Funds incurred and elected to defer such capital losses as follows:

<u>Portfolio</u>	<u>Post October Losses</u>
Dividend Growth Fund	\$ 1,638,886
SMID Cap Dividend Growth Fund	1,347,883
International Small Cap Fund	1,678

At November 30, 2022, the Funds utilized capital loss carry forwards for federal income tax purposes as follows:

<u>Portfolio</u>	<u>Short-Term</u>	<u>Long-Term</u>	<u>Total</u>	<u>CLCF Utilized</u>
Dividend Growth Fund	\$ -	\$ -	\$ -	\$ -
SMID Cap Dividend Growth Fund	-	-	-	-
International Small Cap Fund	69,641	-	69,641	-

Permanent book and tax differences, primarily attributable to the book/tax basis treatment of non-deductible expenses and adjustments for prior year tax returns, resulted in reclassifications for the Funds for the fiscal year ended November 30, 2022 as follows:

<u>Portfolio</u>	<u>Paid In Capital</u>	<u>Accumulated Earnings (Losses)</u>
Dividend Growth Fund	\$ -	\$ -
SMID Cap Dividend Growth Fund	15,121	(15,121)
International Small Cap Fund	(8)	8

#### 7. REDEMPTION FEES

The Funds may assess a short-term redemption fee of 1.00% of the total redemption amount if shareholders sell their shares after holding them for less than 30 days or if shares are redeemed for failure to maintain the Funds' minimum account balance requirement. The redemption fee is paid directly to the Funds. For the six months ended May 31, 2023, the Dividend Growth Fund assessed \$0, \$0, and \$45 in redemption fees for Class A, Class C and Class I shares, respectively. The SMID Fund assessed \$25 and \$767 in redemption fees for Class A and Class I shares, respectively. The International Fund did not assess redemption fees for Class A or Class I shares.

#### 8. SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has determined that no events or transactions occurred requiring adjustment or disclosure in the financial statements.

**Copeland Trust**  
**DISCLOSURE OF FUND EXPENSES (Unaudited)**  
**May 31, 2023**

As a shareholder of the Copeland Dividend Growth Fund and the Copeland SMID Cap Dividend Growth Fund, you incur two types of costs (1) transaction costs, including sales charges (loads) on purchase payments and sales (for Class A shares only) and redemption fees; and (2) ongoing costs, including management fees, distribution and/or service (12b-1 fees for Class A and C shares only) fees, shareholder servicing fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds. Please note, the expenses shown in the tables are meant to highlight ongoing costs only and do not reflect any transactional costs. This example is based on an investment of \$1,000 invested for the period of time as indicated in the table below.

**Actual Expenses:** The first line of the table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During the Period” to estimate the expenses you paid on your account during the period.

**Hypothetical Examples for Comparison Purposes:** The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Funds’ actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Funds’ actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) or redemption fees which may be applicable to your account. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

### **SUPPLEMENTAL INFORMATION (Unaudited)**

#### **Considerations Regarding the Management Agreement**

On May 17, 2023, the Board of Trustees (the “Board”) of Copeland Trust (the “Trust”), including all Trustees who are not interested persons under the Investment Company Act of 1940, as amended (the “Independent Trustees”), considered the renewal of the investment management agreement (the “Management Agreement”) between the Trust and Copeland Capital Management (“Copeland” or the “Adviser”) with respect to each Fund. The Independent Trustees met separately with independent counsel in advance of the meeting held on May 17, 2023 (the “Meeting”) to discuss the material provided by Copeland. The Board reviewed and considered, among other items: (1) a memorandum from independent counsel setting forth the Trustees’ fiduciary duties, responsibilities and the factors the Trustees should consider in their evaluation of the Management Agreement; and (2) a report and presentation by Copeland that described, among other things: (a) the nature, extent and quality of the services provided by Copeland to each Fund and the experience and qualifications of the personnel providing those services; (b) its organizational structure, financial information, level of insurance coverage, Form ADV and SOC 1 report; (c) its investment process and the strategy of each Fund; (d) its types of clients and assets under management; (e) its brokerage, soft dollar commission and trade allocation policies, including the types of research and services obtained in connection with soft dollar commissions; (f) the investment performance of each Fund as compared to its applicable benchmark index, Copeland’s other similarly managed accounts as applicable, and relevant peer group; (g) its advisory fee arrangement with each Fund as compared to its relevant peer group and Copeland’s other similarly managed accounts as applicable; (h) the contractual fee and expense waiver arrangement with each Fund; (i) its compliance program to monitor and review investment decisions and to prevent and detect violations of each Fund’s investment policies and limitations, as well as federal securities laws and conflicts of interest assessments, its business continuity and disaster recovery plan and information security system; (j) the costs of the services provided and the profits realized by Copeland from its relationships with each Fund; and (k) the extent to which economies of scale are relevant as each Fund grows, and whether the fee levels reflect these economies of scale to the benefit of shareholders. The Trustees discussed the Adviser’s written materials and oral presentation on the Management Agreement, together with information provided to the Trustees over the course of the year. During the executive session, the Board discussed, among other things, the performance of the Funds, expenses, fee levels and waivers, and the Adviser’s profitability and financial strength. In their deliberations, the Trustees did not identify any single factor as determinative or controlling, and different Board members may have given different weight to different individual factors and related conclusions. After further discussion, the Board, including all of the Independent Trustees, concluded that: the Adviser had the capabilities, resources and personnel necessary to manage each Fund; and that based on the services that the Adviser provides to the Funds pursuant to the Management Agreement and the expenses incurred by it in the performance of such services, that the compensation payable to the Adviser with respect to each Fund is not unreasonable.

Among the factors considered, the Board examined the nature, extent and quality of services provided to each Fund under the Management Agreement, and the quality of the Adviser’s professional portfolio management teams. The Board considered, among other things, its on-going dealings with the Adviser, noting that the Adviser has consistently demonstrated its commitment to the interests of the Trust’s shareholders, communicated well with the Board and cooperated in

### **SUPPLEMENTAL INFORMATION (Unaudited)(Continued)**

all respects with the Board's requests for information. The Board considered the Trust's CCO's reports on the Adviser's quarterly compliance certifications. The Board considered the experience and qualifications of each portfolio manager. Based on these considerations, the Trustees determined that the Adviser has the capabilities, resources and personnel necessary to manage each Fund and also concluded that they were satisfied with the quality of services provided by the Adviser in advising each Fund.

The Board considered the costs of the services provided and the profits realized by the Adviser, as discussed at the Meeting. The Trustees concluded that the negative profitability with respect to each Fund was not a concern given the relatively small asset base of each Fund and the Adviser's overall financial strength and the Funds' importance to the Adviser's overall business strategy. The Trustees also concluded that the benefits derived by Copeland from managing each Fund, including how it uses soft dollars, and the way in which it conducts portfolio transactions and selects brokers, seemed reasonable.

The Board also considered the management fees and expenses of each Fund. The Board concluded that, based on the information discussed at the Meeting, each Fund's management fee and expenses, taking into account Copeland's agreement to waive fees and reimburse expenses to limit the expenses of each Fund, were reasonable as compared to the fees and expenses of comparable funds, and Copeland's similarly managed accounts where applicable.

The Board also considered the investment performance of each Fund against its applicable benchmark index and peer group. The Board also took into account the portfolio managers' discussion of each Fund's performance and comparable strategy, including, where applicable, the reasons for each Fund's over or under-performance as compared to its benchmark index and peer group, as well as performance, where applicable, compared to the Adviser's separately-managed accounts. Based on this information, the Trustees concluded that the performance of each Fund for the periods shown was generally mixed (performance for certain periods was higher than the benchmark and comparative peer performance information, and in other cases it was lower).

As to economies of scale, the Trustees noted that the Management Agreement does not contain breakpoints that reduce the fee rates as assets grow. The Trustees considered the current asset levels of each Fund and Adviser's agreement to waive fees and reimburse expenses as a means to limit each Fund's expenses and concluded that, at this time, the absence of breakpoints was reasonable.

Based upon the Trustees' deliberations and evaluation of the information described above, the Trustees, and separately by all of the Independent Trustees, determined that the terms of the Management Agreement were reasonable and fair to each Fund and its respective shareholders and voted to renew the Management Agreement with respect to each Fund.
